# VIRGINIA PSYCHOLOGICAL ASSOCIATION ACADEMIES

## VIRGINIA ACADEMIC AND APPLIED PSYCHOLOGISTS (VAAP)

VAAP members include psychology faculty at Masters and Doctorate levels teaching in secondary schools, community colleges, four year universities, as well as research psychologists in academic and nonacademic settings. Associate membership in VAAP is offered to graduate and undergraduate students or interns in recognized psychology programs, and to certified high school teachers of psychology.

Additionally VAAP is the "united summit" for those members of VPA who seek to advance the art and science of the practice of applied psychology. Its members include some whose professional activities have focused on industrial and organizational areas, environmental research and practice, consultation with or administration of public and private service institutions and agencies, and some involved with academic, clinical or school psychology.

## VIRGINIA ACADEMY OF CLINICAL PSYCHOLOGISTS (VACP)

VACP is the voice of clinical psychology within the Commonwealth. Its members are licensed clinical psychologists trained to deliver mental health services in a variety of settings. The purpose of the Academy is the advancement of Clinical Psychology as a science, as a profession, and as a means of promoting public welfare. VACP has played a critical role in securing and maintaining its members' rights to engage in independent practice and the public's right to receive high quality mental health care.

## VIRGINIA ACADEMY OF SCHOOL PSYCHOLOGISTS (VASP)

VASP is the state professional association representing the field of school psychology. VASP focuses on the psychoeducational development of individuals. School psychologists assist students, families, and school personnel through assessment, consultation, direct intervention, program evaluation, and research examining the effectiveness of school programs.
